YOUR INVESTMENT IS ENOUGH TO GENERATE OVER **\$900** INCOME

BENEFITS & FEATURES OF BLIXZ NAIL FOILS

COMMON NAIL COMPLAINTS	BLIXZ SOLUTION
I constantly chip my nail polish following my manicure.	Blixz won't chip.
I don't like waiting for my nail polish to dry following my manicure.	Blixz requires no drying time.
I find the chemicals used in professional nail salons very irritating.	Blixz is completely chemical free.
I find it difficult to paint my own nails at home in-between my nail services.	Blixz can easily be applied.
I occasionally have my nails painted with a loud design for special events, afterwards, the design is a little too loud for me to wear to work	Blixz are very simple to remove and easy to apply. Why not choose a more neutral foil for everyday wear.
I am allergic to chemicals used in acrylic nails. But I still want to wear long nails.	Blixz can be applied on to a party-tip nail without chemicals.
